How to add your conference contribution to Pure
TU Delft Library, 21 December 2016

IMPORTANT
The registration process below only applies to conference papers that have been:
• presented at a conference and are published in a host publication/proceedings;
• presented at a conference and published in a journal (for example ‘Procedia Engineering’), or
  as a chapter/part of a book.

Please note that this process does not apply to conference contributions adjusted after the
conference to be published in a special edition of a journal. This kind of research output must be
registered as a contribution to a journal/article (see instructions on ‘How to add an article’).

When in doubt or in case you would like to add other kinds of conference contributions/proceedings
please contact the Pure contact person at your faculty first.

Please note the following before registering research output:

1. The research output to be registered should refer to an affiliation with Delft University of
   Technology or a faculty/department/institute. If this is not the case please contact the Pure
   contact person at your faculty.
2. Conference contributions in preparation or submitted cannot be registered; only electronic
   publications ahead of print or finally published output must be registered in Pure.
3. Only those fields marked with an asterisk (*) are required and should be completed by
   you.
4. In order to complete the registration please submit the post print or ‘accepted author
   manuscript’ of your contribution in Pure (see step 9).
5. Research output entered in Pure is deposited in the TU Delft Institutional Repository,
   meeting the Open Access policy requirements.

1. New research output
After logging into Pure select the + next to Research output on the left side of the screen.
2. **Correct research output type**
   - Select ‘Chapter in Book/Report/Conference proceeding’ and then ‘Conference contribution’.
   - **Important**: do not use the research output template of ‘contribution to conference’.

![Choose submission](image)

3. **Publication Type: Scientific, Professional or Popular**

Choose the correct ‘Publication category’.

![Type](image)

If ‘Scientific’, mark ‘Peer-reviewed’ or ‘Not peer-reviewed’.

![Type](image)
If ‘Professional’:

4. **Publication state**
   - First select your latest publication state. Please note that papers ‘In preparation’ or ‘Submitted’ must not be registered.
   - Add your publication date. Only fill in the publication year. Month and day are not required.

If ‘Popular’:
5. **Publication information**
   - Check/correct ‘Original language’.
   - Fill in the ‘Title of the contribution in original language’. If you need to insert mathematical/chemical symbols or diacritical marks, please click on ‘Symbols formatting’.
   - If known please indicate ‘pages (from-to)’ and/or the ‘article number’.

![Publication information screenshot]

6. **Authors and affiliations**
   - If you are logged into Pure your name and affiliation are automatically filled in. Check if this information is correct. If not, click on ‘edit’ next to your name.
   - Click on the button ‘Add person...’ if you need to add another author to your paper.
   - In case the author is an employee of Delft University of Technology, enter the name in the search field and choose the right person. A new field will pop up. Check if the information is correct. Please make sure to choose the correct ‘Affiliation on the research output’.

![Authors and affiliations screenshot]
• In case the author is not an employee of Delft University of Technology, enter the name in the search field and choose the right name, or click on ‘create external person’. When filling in a new name please note that initials are required, separated by dots. Choose the right external organisational unit.

7. Research output managed by
• If you are logged into Pure the managing organisational unit will be filled in automatically. Select the section of the first author with an affiliation of Delft University of Technology. Please note that this could be another section than yours.
• Important (!): only select the department/faculty if the first TU Delft author is directly working for the department or the faculty and does not have a section/research group.
• In case of multiple employments, remove the incorrect one(s) for this publication.
8. **Host publication**
   - Fill in *Title of the host publication* in original language (in most cases this will be “Proceedings of [insert title of conference]”).
   - If available ‘Add publisher’, fill in ISBN (print and/or electronic) and ‘Add editor’.

![Host publication form](image)

9. **Electronic version(s), and related files and links**
   If available please add an electronic version of your paper by uploading the file, DOI or link by choosing ‘Add electronic version (file, DOI, or link).

![Electronic version form](image)

   - Choose one of the options:
     - Depending on your choice, upload an electronic version from your computer (see print screen below), DOI or link.
     - Select the correct ‘Document version’: *Accepted author manuscript* (if possible upload a PDF version of the ‘Accepted Author Manuscript’).
     - Select the correct ‘Public Access to File’. In case of an embargo, choose ‘Embargoed’ and fill in the embargo dates. In case of doubt of the Open Access status, select Closed. The Library will check this and select the right value for this field.
     - Click ‘Create’.
10. Add event
- Add the event of your conference contribution by choosing ‘Add event...’.
- A new field will pop up. Either search the event by entering the name in the search field of click on ‘create new’ if there are no search results.
- Preferable use the abbreviation of the event and add the date when creating a new event.

11. Save your research output
Click save on the bottom of the screen.

Additional information like TU Delft Research ID’s, author’s keywords and abstract (if available in your file) will be added by the Library.
