

How to link works from other systems to your ORCID record

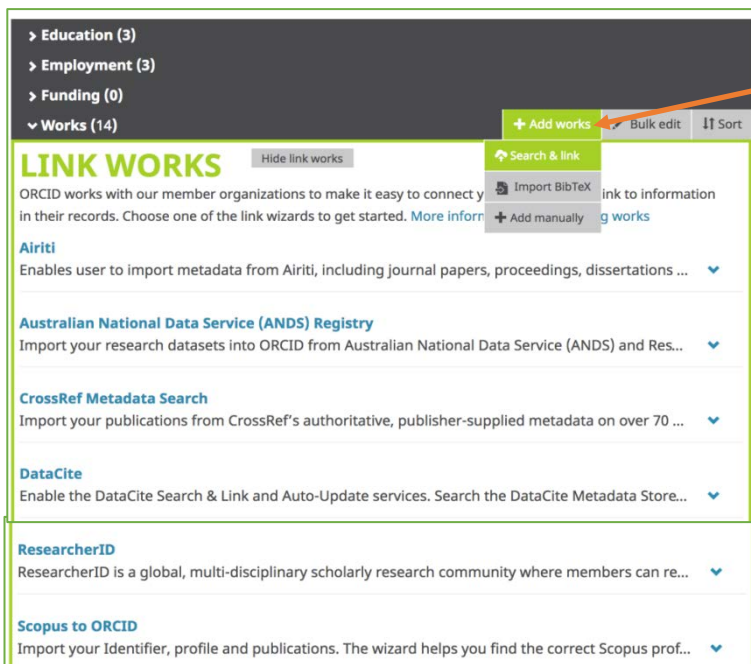

TU Delft Library, 22 March 2017

When you have an ORCID iD, it takes 5 minutes to enrich your profile with works connected to other identifiers, like ResearcherID from Web of Science or AuthorID from Scopus. If you don't have an ORCID yet, [first register one here](#).

Logon to orcid.org with your ORCID iD

Add works to your profile with **Search & Link!**

To connect to your AuthorID

Select **Scopus to ORCID** in **Link Works**, which takes you to Scopus website where you follow all the steps, from **Select profiles** to **Send publications**.

After sending your publications to ORCID, your Scopus Author ID is submitted.

Allow Scopus to send your publication list to ORCID and your profile on orcid.org will show all your papers identified on Scopus.
